Summary

About

I am passionate about transforming ideas into tangible software solutions. I continuously strive to enhance my skills and knowledge. My goal is to stay at the forefront of technological advancements by embracing lifelong learning and professional development. I am dedicated to building efficient, scalable, and innovative applications that make a difference.

Ideal next job

My ideal next job combines UI/UX design with full-stack development, allowing me to create seamless, user-focused digital experiences from concept to code. I want to design intuitive interfaces while also building scalable front- and back-end solutions. I'm passionate about bridging design and development to deliver polished, functional products that are both beautiful and technically sound. Working in a collaborative team where I can contribute to both the creative and technical sides of a project is key. I'm eager to grow in a role that challenges my problem-solving, design thinking, and coding skills while allowing me to have a direct impact on user experience and product performance.

Work experience

Sep 2025 - Present

Nagarro (Frontend engineer)

React

JavaScript

Tailwind CSS

HTML

CSS

React Native

Frontend Development:

Proficient in JavaScript, React, HTML, and CSS for building responsive, user-friendly web interfaces. Skilled in using Tailwind CSS for rapid UI design and styling consistency.

Mobile Development:

Experienced with React Native for developing cross-platform mobile applications with a focus on performance and intuitive user experience.

Apr 2025 - Present

Nagarro (Ui/Ux designer)

Figma

User Experience Design

User Interface Design

Conduct user research, competitor analysis, and usability testing to understand user needs.

Develop user personas, customer journeys, wireframes, and prototypes.

Design intuitive UI elements, interactive features, and responsive layouts.

Collaborate with product managers, developers, and stakeholders to bring designs to life.

Maintain and evolve design systems and style guides.

Ensure consistency in visual language and user experience across platforms.

Iterate designs based on feedback, analytics, and testing
